### Jefferson and the Tariff.

The Democrats are in the habit of naming Jefferson as the founder of their party, and house with a builet wound in his left breast, which he says was inflicted by nighwaymen late Monday night while he was on his way home from New Dorp.

The physicians who are attending Nolan have not yet been able to remove the builet. While the young man's condition is critical the wound is not considered necessarily fatal. Nolan sticks to his original statement that he was attacked by two men who were hands kerchicas over their faces and that he was robbed of \$900 and a gold watch and chain. he was attacked by two men who were hand-kerchlets over their faces and that he was robbed of \$90 and a gold watch and chain About \$80 of this money belonged to the canals, rivers and education."

While the police do not openly say that they doubt young Nolan's story, they blut that perhaps all the facts have not yet come out.
